VAIBHAV WANI

Pune, Maharashtra | vwani000@gmail.com | +91 77960 80794 | portfolio | www.linkedin.com/in/vaibhavwani17 | github.com/V-wani

PROFESSIONAL SUMMARY

Engineering student with experience in **Python, data analysis, and full-stack web development**.
Skilled in **NumPy, Pandas, and data visualization for exploratory data analysis**, and building responsive web applications using **React and modern frontend frameworks**.
Hands-on exposure to **AI/ML workflows, dataset preparation, and model experimentation during industry internships**.
Interested in developing **scalable software systems and machine learning applications**.TECHNICAL SKILLS

Languages: Python, JavaScript

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, Firebase

Database: SQL, NOSQL(basic), Firebase(basic)

Data Science & Machine Learning: NumPy, Pandas, Matplotlib, Seaborn, Data Cleaning, Data Analysis, Exploratory Data Analysis (EDA), Scikit-Learn (Basic)

Data Visualization: Power BI

Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code.

PROFESSIONAL EXPERIENCE

Web Development Intern | Web Wide IT Solution LLP | June 2025 – July 2025

Pune, India

- Developed responsive and SEO-friendly web interfaces using HTML, CSS, JavaScript, Bootstrap, and React.
- Optimized website performance and responsiveness across desktop and mobile devices.
- Followed industry-standard coding practices and version control using Git while collaborating on real client projects.

AI / Machine Learning Intern | Sun Fibo Technology Private Limited | Jan 2026 - Feb 2026

Pune, India

- Assisted in data preprocessing, dataset organization, and preparation for machine learning pipelines.
- Supported model experimentation, testing, and local execution of ML workflows.
- Analyzed project repositories to understand real-world AI development practices and deployment structures.

PROJECTS

Smart Health Portal - Web Application Project | GitHub

Oct 2025 - Nov 2025

HTML, CSS, JavaScript, Bootstrap, Firebase (Auth & Database)

Web-based Smart Health Portal designed to promote fitness and healthy lifestyle management through interactive tools and secure user access.

Developed a centralized health platform featuring BMI and calorie calculators, diet assistance, yoga, and gym guidance modules for daily wellness tracking.

Implemented secure user authentication and data handling using Firebase, ensuring reliable access control and scalability for future health record features.

Designed a responsive and mobile-friendly UI, improving accessibility and usability across devices and supporting seamless user interaction.

E-Commerce & Brand Website- Live Project | site link

Jan 2025 – Present

HTML, CSS, Bootstrap, JavaScript, PHP, MySQL, SEO, Google Search Console, Cloud Hosting

***Description**: Designed and deployed a production-ready jewellery brand website with a strong focus on SEO optimization, performance efficiency, security best practices, and mobile-first user experience*

Developed a SEO-optimized and responsive web platform, implementing structured data, optimized metadata, and performance-focused frontend architecture.

Ensured deployment readiness through secure input handling, HTTPS configuration, asset optimization, and scalable production setup.

CERTIFICATIONS & ACHIEVEMENTS

- **Generative AI Certification**- Mcrosoft & LinkedIn
- **Oracle Cloud Infrastructure (OCI) 2025 Certified Generative AI Professional** - Oracle Corporation (2025)

EDUCATION

B.Tech in Computer Science

First year CGPA: 9.2/10.0

Zeal college of engineering and research, Pune | 2024 – Present
